

ADRIÁN GALLARDO MUÑOZ

Financial Controller & Data Analyst

Alicante, Spain · +34 665 608 608 · adriangallardogm@gmail.com
linkedin.com/in/adriangallardomuñoz · Portfolio: portafolioadrianv2.netlify.app · github.com/DatalyticsAGM

PROFESSIONAL SUMMARY

Financial controller and data analyst experienced in budget consolidation and control, variance analysis, profitability analysis, executive reporting and Business Intelligence. Master's Degree in Business Intelligence (UNIR). I combine management control expertise with hands-on data skills (Power BI, SQL, Python, R, ETL, Machine Learning) and process automation (n8n, AI). Seeking to add value in Financial Controller, Data Analyst or Business Intelligence roles.

PROFESSIONAL EXPERIENCE

- Financial Controller · Grupo Vectalia (Alicante, Spain)

Jan 2026 – May 2026 · Maternity-leave cover

 - Group budget consolidation: validated budgets against historical data and monitored changes and variances.
 - Profitability analysis by business unit: financial ratios, operating margins and P&L insights sourced from the corporate ERP.
 - Reviewed economic-financial feasibility studies supporting public-tender bids.
 - Monthly tracking of financial KPIs and executive reporting to General Management (SAP BI, Power BI, Excel).
- Commercial & Industrial Controller · Vacavaliente EU (Elche, Spain)

Jul 2025 – Dec 2025

 - Led the internal rollout of the Odoo ERP: bulk data migrations and end-user training.
 - Automated administrative, commercial, logistics and financial processes.
 - Analysed core business KPIs (sales, margins, promotions, ROI) and tracked budget-vs-actual variances.
 - Supported budgeting, forecasting and monthly closing; evaluated commercial investments and campaigns.
- Business Intelligence Analyst · Finetwork (Elda, Spain)

May 2025 – Jun 2025

 - Optimised SQL queries on PostgreSQL and structured data for reporting.
 - Built and administered Metabase reports (activity, quality, processes) and supported business users.
- Banking Back-Office Specialist · NTT Data — client: CaixaBank (Alicante, Spain)

Dec 2023 – Nov 2024

 - Daily and monthly settlement, reconciliation and closing control of Exchange-Traded Derivatives (ETDs) in domestic and international markets.
 - ETL processes with SQL and daily data exploitation with Power BI and pivot tables; prepared financial reports.

SELECTED PROJECTS

- CTSA Field OS** — production web application for a food-safety company: digitalises HACCP field inspections with digital signature, automatic PDF generation and email delivery (Next.js, TypeScript, Supabase/PostgreSQL, n8n, AI-assisted development).
- Master's Thesis — End-to-End BI System for Altadis (Imperial Brands)** — ETL in R, PostgreSQL Data Warehouse (star schema) and executive Power BI dashboards with clustering (K-Means, PCA) and predictive models.
- JAKS (jaks.es)** — own automation brand for SMEs: AI chatbots on WhatsApp, automated n8n workflows, integrations and dashboards.

EDUCATION

- Master's Degree in Business Intelligence** — UNIR, Spain (2024–2025).
- Bachelor's Degree in Business Administration and Management** — University of Alicante.

LANGUAGES

- Spanish: native.
- English: B1 (Cambridge), currently preparing B2.
